Channel indicating in different control modes:

Mode 1: When the connection indicator is blue, it indicates Select CH 1-3 or CH A, when it is green, it indicates Select CH4-6 or CH B.

Mode 2&3: The Footswitch LED indicates the current channel via blinking in green color. For indicating the sixth channel, FS D LED and FS E LED will blink green together. If you want to disable this function, hold Footswitch E and turn on the power switch.

Toggle effects indicating: In Mode 1-Mode 3, The Footswitch LED will indicate the on/off status of effects via solid blue color/off.
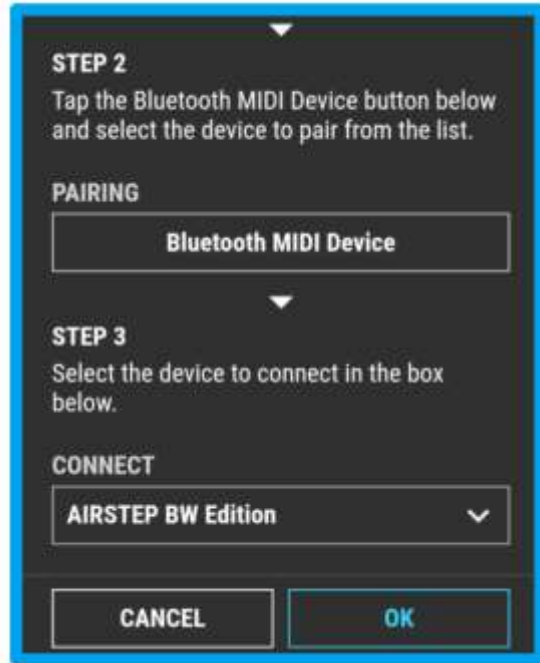

About the FUNC button: You can save the current patch to KATANA-AIR/WAZA-AIR via long-press the FUNC button.

Use AIRSTEP BW Edition and the BTS App at the same time:

Make sure the AIRSTEP BW Edition has been connected to KATANA-AIR/WAZA-AIR before the next steps. If you are not sure what to do, recheck 1-4 to make sure AIRSTEP BW Edition has been connected to KATANA-AIR/WAZA-AIR as the preparation.

1. Turn on the Bluetooth of your smart device that using BTS App for KATANA-AIR/WAZA-AIR. If it is an Android device, please turn on the location, too.
2. Bluetooth pair AIRSTEP BW Edition with your smart device.
3. Enter the BTS App, and pair AIRSTEP BW Edition in the "Bluetooth MIDI Device", then choose AIRSTEP BW Edition in "CONNECT", click "OK". for the method of using AIRSTEP BW Editon and the BTS App together, you only need to connect AIRSTEP BW Edition in

the BTS App, not WAZA-AIR/KATANA-AIR.

4. After the parameter editing page shows, it means successful connection. Now you can use AIRSTEP BW Edition to control the KATANA-AIR/WAZA-AIR and using BTS App to edit the presets at the same time. For this kind of connection method, you need to make sure to connect AIRSTEP BW Edition to KATANA-AIR/WAZA-AIR as the first step, and then connect AIRSTEP BW Edition to BTS App as the second step.

Note: Although AIRSTEP BW Edition can be paired with the smart device, it is not supported by AIRSTEP App. You can pair AIRSTEP BW Edition in the AIRSTEP App, however, AIRSTEP BW Edition won't respond to any editing.

Charging: Use the USB charging cable in the accessory or the 9v standard pedal power.

Upgrade Firmware Mode: Hold FS D and turn on the power.
